Technical drawing of a baggage handling system layout for Guangzhou Baiyun International Airport. The drawing shows a top-down view of a rectangular baggage handling area with dimensions 150m, 120m, 150m, 150m, and 120m. It includes a 'Main building' (主楼) and a 'Baggage handling system' (行李处理系统). The system consists of a '13M Main building' (13M主楼) and a '135M Baggage handling system' (135M行李处理系统). The drawing also shows a 'Baggage handling system' (行李处理系统) and a 'Baggage handling system' (行李处理系统). The drawing is labeled 'Phase II Expansion Project' (二期扩建工程).
